# Customer Journey

## **1. Meet and greet**

Let's shake hands and get to know each other a little better. We want to know who you are, what you do and why you do it.

## **2. Team huddle**

At this stage our close-knit team will come together and strategize, letting our creative minds loose to find the best solution for you and your business.

## **3. Drafting the game plan**

Once we've identified the best plan of attack to achieve your business goals, it's time to nut out the specifics. This is the time for planning, preparing, and establishing a clear process for your project.

# Customer Journey

## 4. Kick-off time

Now comes the exciting part! It's time to get our hands dirty and start work on your project - executing every step of our initial gameplan to perfection.

## 5. Keeping Score

Throughout our project we'll be keeping a close eye on progress to see what's working and what's not. By measuring everything from the get-go, we'll know exactly which direction to push the project forward

## 6. Chop and change

Based on how your campaign is progressing, we'll adjust our approach as required. Testing, tweaking, and more testing to identify new opportunities that helps your business be better online.

#### About The Event

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.

It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

## Our Role

UI/UX, Development

Formed in 1993, we have years of industry experience and a proven record of success. Lorem Ipsum is simply dummy text of the printing and typesetting industry.

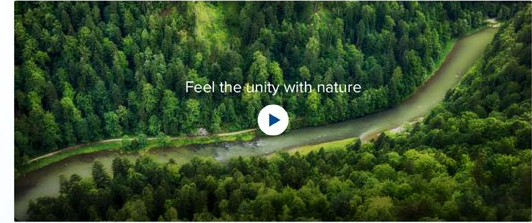

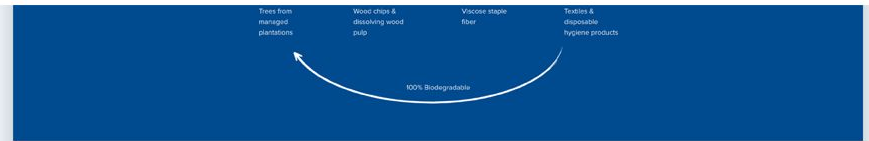

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English.

## APR & SUSTAINABILITY

Sustainability is vital for us as a leader in viscose rayon. We commit to responsible sourcing and production, environmental protection and community development.

Our viscose fibre, made from renewable wood cellulose, is natural and fully biodegradable. We source pulp from managed plantations and prefer suppliers with Chain of Custody certification so we can verify the route from seedling to finished product.

8 billion

We're planting more than 8000 drought-resistant trees. While many are native to the area, we also selected a variety of trees that could thrive in a range of climate change scenarios.

100%

We have protected or created enough sustainability managed forests to cover the 40,000 metric tons of virgin paper we used in our packaging in fiscal year 2016.
